4. Svend Flarup (U. suppleant)

Beslutning

Helene presented the upcoming term's student representation in the study board.

Punkt 5: Summary of Coordinator seminar 12/12

Beslutning

Regarding the student representation's suggestions for making changes to the project formation, Helene orientated the study board that the suggestions was included in the deliberations between her and the team coordinators at the coordinator seminar on December 12.

The supervisors and coordinators will continue to work on how to ensure full student participation in the project formations, and the academic committee will be invited to work on furthering the project formations' social dimensions.

Punkt 6: Lukket

Punkt 7: SMV - Study environment survey

Beslutning

The study board discussed the survey and made the following points:

- Student feedback on the social aspects of the study environment on SIB and SAB are doing worse both in terms of comparing 2023 and 2021 and compared with the other departments' BA programs. Though, it is expected that current initiatives concerning Max WeBar, the initiatives surrounding the project formations, and the environment around the buildings in the swamp will have a positive effect.
- There is a continued wish from students to have rooms and locations that are completely their own.
- Interest and learning motivation has gone up and is higher compared to the rest of RUC.

Punkt 8: 360 Analysis of Sambach degree programs

There are no critical areas for Sambach. The only minor issue is SIB long drop out rate, which Helene has asked the Policy and Analysis team to explain in more details.

Members of the Board are asked to review the attached report in preparation for this agenda item. You should familiarize yourself with the Sambach subject modules (fagmodulerne), so we can discuss the students' selection of Sambach subject modules.

You can access the report here [360-graders_analyse_af_uddannelsesportefolje_2024.pdf](#)

Or via intra --> ansatte --> data og analyser

Beslutning

The study board went through key numbers on, e.g., admission numbers, drop out rates, among others:

- Helene noted that the future cap on SIB at 105 students is welcomed in the perspective of head of study as it will make planning the program more manageable. The 2024 intake was 153 students. There will be no cap at SAB
- "Langt frafald" (dropout on 2nd and 3rd year) are relative high for SIB but there might be some structural and personal financial issues to explain this.
- The ISE subject modules experiences a fine intake of students from other departments.

Punkt 9: Closure of elective courses with low subscription

The study board need to discuss whether to close the courses with less than 30 students enrolled.

Beslutning

The study board approved the suggestions in the attachment.

Punkt 10: Meeting in january

The January Study Board meeting is currently scheduled for **29 January from 12:30 to 15:00**. Please make sure you can attend.

Beslutning

The study board approved the date and time of the January meeting.

Punkt 11: Final appovement of the study curriculum

Recommendation

It is recommended that the study board review and approve the following changes to:

1. BK 7 "Videnskabsteori" (BK 7 is mandatory so it can only have one exam form)-
2. Elective course - take home assignment

Beslutning

The study board approved the recommendations.
