Punkt 10: Danish Student Survey - 30 minutes

Every other year (in odd-numbered years), the Danish Agency for Higher Education and Research conducts the Danish Student Survey (DKSU), which consists of two questionnaire surveys: one among students and one among recent graduates.

The board will at this current meeting focus on the student survey and postpone the graduate survey to the August meeting.

Material: for internal use only

- a general report covering all RUC
- programme specific numbers
- the minutes from the study boards discussion of the DKSU 2023

The student survey provides insight into students' evaluations of the academic and social study environment, learning conditions, well-being, and physical surroundings. The overall response rate at Roskilde University is approximately 20%.

The study board is invited to:

- discuss the key strengths and challenges reflected in the results for the programmes
- consider how the results should be interpreted in relation to local conditions and programme structure
- identify whether there are areas that call for follow-up or further investigation
- consider what actions, if any, fall within the study board's remit (e.g. recommendations, dialogue class coordinators, teachers, or input to study environment action plans)

The discussion may also consider how the results relate to ongoing work on student wellbeing, study intensity, and academic engagement.

Please find the minutes from the study boards discussions and findings to the SMV from 2023 as a background to evaluate developments.

Punkt 11: Planning the thematic discussion for the August meeting - 15 minutes

The study board has at a previously meeting decided to have a longer thematic discussion at the August meeting. Is this still the case? If so what should it be about? And who wants to prepare the discussion?

Under item 12, you will find inspiration for ideas.

Punkt 12: Overview of and status on study board themes and cases - if time in the agenda!

Task- if time in the agenda!

The board is continuing the work of reviewing the list of themes and cases in order to decide:

1. if ideas mentioned by the board before 2025 are to be considered current initiatives or as no longer relevant.
2. if ideas on course evaluations are still relevant
