New process for Mid-term

The board is very satisfied with the process presented by Andres and states the important of the mid-term evaluation.

I was suggested that we add a question regarding if the teaches have acted on the input given in mid-term. Andres asses that it will be too hard to raise that question in the current form and process, but will work on a process that will be introduced to ISE-UDDU and the board of studies

Adapting next to next year:

- Having it over fewer days - 2 days
- Waiting until September to start the study start program, also due to student economy
- The student and career and library items were repetition for many students and should be taken out of the program.
